

private clients, local municipalities, counties, and State government, and even played a larger role in the surveying and construction of two of my alma maters, the University of Miami—go Canes—and Florida International University—go Panthers. The list goes on and on.

Most importantly, its engineering surveyors, planners, and staff uniformly promote the company's core values of integrity, honor, and leadership in their work and, to this day, still continue the commitment and the tradition of its founders.

So congratulations to Biscayne Engineering on its 120th anniversary. I am always glad to celebrate anything that is older than I.

HONORING THE LIFE OF MAJOR GENERAL GEORGE W. KEEFE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Massachusetts (Mr. MCGOVERN) for 5 minutes.

Mr. MCGOVERN. Mr. Speaker, I rise today to honor a proud servant of the people and Commonwealth of Massachusetts, Major General George W. Keefe, who passed away last Thursday, June 21.

He will be laid to rest tomorrow, June 28, in Northampton, Massachusetts, surrounded by his family, friends, fellow officers, and the men and women who served with him throughout his 49-year career in military service.

Major General George W. Keefe was born in 1939 in Northampton. He attended public schools in Northampton and graduated from Northampton High School in 1956. He received his associate's degree from Holyoke Community College in 1966.

He enlisted in the Massachusetts Air National Guard's 104th Tactical Fighter Group in 1956 as a crash fire rescue specialist, attaining the rank of master sergeant before he was selected for a commission as an officer and first lieutenant.

He served as a squadron group and vice wing commander at the 104th Tactical Fighter Group before being selected to serve at the Massachusetts National Guard Joint Force Headquarters. He was the last member to serve in uniform of the Massachusetts Air National Guard that was federally activated and deployed from October 1961 to September 1962 in Phalsbourg, France, for Operation Stair Step, the U.S. military's response to the Berlin crisis.

George was also enshrined in the U.S. Air Force's Enlisted Heritage Hall at Maxwell Air Force Base in Alabama as one of the few general officers who rose from the rank of airman basic to major general.

He was selected and appointed as the 39th adjutant general of Massachusetts in 1999 by Governor Paul Cellucci. With this appointment, he became the first U.S. Air Force officer to serve as a

Massachusetts adjutant general since 1778. That is a long time, even by Massachusetts reckoning.

He continued to serve under Lieutenant Governor and then acting Governor Jane Swift, and Governor Mitt Romney reappointed George to a second term as adjutant general, a position he held until retiring in 2005 after 49 years of military service.

Among one of the bigger moments in his job as adjutant general was September 11, 2001, when he had to activate the Massachusetts National Guard to respond to the terror attacks on New York City that involved two jetliners that had flown out of Logan International Airport in Boston.

I first met Major General Keefe at the start of my second term in office. I had just won my first reelection campaign and he had just been appointed adjutant general of Massachusetts National Guard. I respected the experience and long view that he brought to his position, and he was very helpful to me then and over the next 6 years in understanding the priorities of the Massachusetts National Guard and introducing me to the soldiers, airmen, and uniformed men and women who serve in the Massachusetts Guard and Reserve as well as their families.

I appreciated his Irish sense of humor, and I admired and respected his dedication and service to our country, the Commonwealth, and, most importantly, to the many servicemembers of the Massachusetts National Guard.

Like so many in Massachusetts, his little piece of heaven was his house on Cape Cod where he watched his sons and his grandchildren enjoy the beach, the waves, fried seafood, and the countless whiffle ball and miniature golf matches.

The eldest of his four sons, Gary W. Keefe, currently serves as adjutant general of the Massachusetts Air National Guard.

Few lives are as filled with service, love of friends and family, and so firmly rooted in Massachusetts as that of former Major General George W. Keefe. He made a big difference in the lives of so many people and in the life and history of our Nation.

Major General George W. Keefe was not only a great man but, more importantly, a very, very good man. He will be missed, and we salute him as we say farewell and Godspeed.

PROTECT AMERICA'S BAKERS

The SPEAKER pro tempore. The Chair recognizes the gentleman from New Jersey (Mr. GOTTHEIMER) for 5 minutes.

Mr. GOTTHEIMER. Mr. Speaker, I rise today to stand up for New Jersey jobs and New Jersey workers who are the best in the world. In Fair Lawn, New Jersey, the men and women at Mondelez bake top-quality products like Oreos, Teddy Grahams, Ritz Crackers, Chips Ahoy, and Barnum's Animal Crackers.

Mr. Speaker, Americans who enjoy Oreos or animal crackers would be proud to know that these delicious cookies and crackers are produced right here in America. However, I believe they would be shocked to hear about some of the recent practices of the company that threaten these employees' retirement and will outsource their U.S. production jobs to Mexico, an issue that Democrats and Republicans alike are rightly sounding the alarm about.

In the past month, Mondelez announced its intention to withdraw from its employees' retirement plan that the company participated in for 60 years, setting the stage for a retirement catastrophe that could impact more than 100,000 American workers.

The men and women I represent have worked hard and played by the rules their whole lives, responsibly planning for their retirements, taking care of their families, doing what they need to do. Mondelez can't just change the rules mid-game as people prepare for their retirements.

Mr. Speaker, America's seniors deserve security when they retire, and our workers deserve nothing but the best. Destroying retirement income, shipping jobs overseas to low-wage countries, and eroding the middle class sets us on a dangerous and unsustainable path.

I stand with the Bakery, Confectionary, Tobacco Workers & Grain Millers Local 719 in Fair Lawn and America's jobs. And I hope that Mondelez can sit down at the table and find a way to keep their commitments to New Jersey workers while continuing to make a great product in the United States of America and in New Jersey in the district that I represent.

HONORING THE CAREER OF ARMY CORPS COLONEL JOHN P. LLOYD

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to recognize the service of Colonel John P. Lloyd, commander of the Pittsburgh District of the U.S. Army Corps of Engineers.

Colonel Lloyd assumed command of the Pittsburgh District on July 29, 2016. As the commander, he is responsible for carrying out the district's mission within the Ohio River basin, which includes more than 328 miles of navigable waterways on the Allegheny River, Monongahela River, and upper Ohio River.

The Pittsburgh District's 26,000 square miles include portions of western Pennsylvania, northeastern West Virginia, eastern Ohio, western Maryland, and southwestern New York. Colonel Lloyd oversees 23 navigation locks and dams, 16 multipurpose flood damage reduction reservoirs, 80 local flood damage reduction projects, and other projects to protect and enhance water resources.

Mr. Speaker, I had the pleasure of getting to know Colonel Lloyd during his tenure as commander of the Pittsburgh District, and he is a true public servant. He oversaw the Task Force Power Restoration effort in Puerto Rico after Hurricanes Irma and Maria tore through in 2017. He mobilized and deployed a specialized team of Army Corps personnel to rebuild the island's electrical system of power generation, transmission, and distribution.

Colonel Lloyd's team worked with FEMA, the Department of Energy, the power industry, Puerto Rico Electric Power Authority, and other stakeholders to restore more than 85 percent of Puerto Rico's prestorm power grid within 5 months. He displayed truly remarkable leadership.

Colonel Lloyd also took the time to travel to my district to meet with the Punxsutawney Borough Council to discuss modifications for its levees.

His expertise is second to none, and we have been fortunate enough to have Colonel Lloyd at the helm in the Pittsburgh District.

Prior to his assignment in Pittsburgh, Colonel Lloyd served in a variety of engineer command and leadership positions, including battalion commander of the 19th Engineer Battalion at Fort Knox, Kentucky. Before that, he served as the Army fellow assigned to the Asia-Pacific Center for Security Studies in Honolulu, Hawaii.

□ 1015

Colonel Lloyd is a man with numerous military awards and decorations, and the accolades surely do match his commitment and dedication to his job.

I wish Colonel Lloyd the best as he departs the Pittsburgh District for his next assignment. He has done an outstanding job for the citizens of northwestern Pennsylvania, and it has been an honor and a privilege to get to know this fine individual over the past 2 years.

NATIONAL ORCA PROTECTION MONTH

The SPEAKER pro tempore. The Chair recognizes the gentleman from Washington (Mr. HECK) for 5 minutes.

Mr. HECK. Mr. Speaker, 2 weeks ago we reached another troublesome milestone for Puget Sound's magnificent, but endangered, orca population.

We lost yet another southern resident orca, this time a 23-year-old male known as L-92. This is the third death just in the past year, and the sixth in the past 2 years.

There are now just 75 southern resident orcas left, the lowest number in 34 years. In fact, that is 13 fewer whales than when the population was initially listed in 2005 under the Endangered Species Act.

I am sad about this loss and frustrated about this loss. Indeed, I am beyond frustrated. I am beyond frustrated because we know what needs to be done to save this iconic species in

the Pacific Northwest. But, quite frankly, the Federal Government isn't living up to its partnership responsibility.

Back home in Washington State, the State government and local partners are stepping up. Governor Inslee earlier this year created the Southern Resident Orca Task Force, and he charged two terrific public servants, my friends, Stephanie Solien and Les Purce, with leading it. But these partners can't do it alone; nor should they.

We all have to fully invest in the Puget Sound in orca recovery programs. Mr. Speaker, I remind you Puget Sound is the largest estuary in the United States of America.

The good news is we know where our efforts need to go. Eighty percent of the southern resident orcas' diet is Chinook salmon, and these salmon populations are in just as much danger of extinction as our orcas. Most of those salmon are gone. They are being eaten by sea lions and seals; and where they swim in Puget Sound it is simply too polluted.

The pollution killing them is from storm water runoff—toxic metals, chemicals, and oils. It kills literally in a matter of hours, and we have the film to prove it. Storm water runoff remains the largest source of pollution in Puget Sound, and we cannot save our beloved orcas and our salmon if we do not stop that. Period.

So we will fight for funding to tackle these problems. But I also believe we have to raise awareness. That is why last week I introduced H. Res. 959, which would designate June 2018 as National Orca Protection Month. In Washington State, we gather every June to celebrate our southern resident orcas. We join Native American Tribes who have always recognized and honored the spiritual and cultural significance of that which they call the Blackfish.

But as the orca population has declined, these celebrations have turned into calls for action. National Orca Protection Month serves as a reminder of work that requires a year-round focus. It is vital that the Federal Government play its vital partnership role.

So, Mr. Speaker, I ask Members to please support this resolution to designate National Orca Protection Month. Let's give our Federal agencies the resources they need to prevent the extinction of this beautiful and magnificent species and ensure that orcas survive for generations yet to come.

PREVENTING INTERNATIONAL PARENTAL CHILD ABDUCTIONS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from California (Mrs. MIMI WALTERS) for 5 minutes.

Mrs. MIMI WALTERS of California. Mr. Speaker, I rise today to share the heartbreaking story of an Orange County father named Randy Collins. On March 3, 2003, Randy and his wife

welcomed their son, Keisuke, to the world.

Following their divorce, Randy became concerned that his ex-wife would flee with their son to her home country, Japan. The California court system agreed and granted a temporary restraining order on foreign travel for their son. Unfortunately, this did not prevent the abduction from taking place.

I first met Randy during my time in the California State Senate when we worked together on legislation to prevent future international parental child abductions. I am proud the bill, named Keisuke's Law in honor of Randy's son, passed the State legislature unanimously and was signed into law on September 7, 2012.

This month marks 12 years since Randy, a loving and devoted father, last saw his son. Japan continues to have one of the worst records in returning abducted children like Keisuke to the United States.

Mr. Speaker, as the mother of four, I can only imagine the pain that Randy must feel missing each passing milestone of his son's life. This is a grave injustice, and I will continue to support Randy and all families whose children have been wrongfully abducted.

REMEMBERING DUNCAN GIGERICH

Mrs. MIMI WALTERS of California. Mr. Speaker, I rise today in memory of Duncan Gigerich whose life was tragically cut short on June 9, 2018.

Duncan was only 19 years old at the time he passed away, yet he demonstrated maturity well beyond his years. As a high school football player, Duncan demonstrated leadership skills both on and off the field. Duncan just returned from a semester abroad in New Zealand where he studied the country's natural history and culture while learning invaluable outdoor leadership and survival skills. He was undoubtedly full of life and eager to embark on each new adventure before him.

Mr. Speaker, I offer my sincerest condolences to the Gigerich and Dirk families and to all those who were fortunate enough to know Duncan. His memory will live on through the many friends, family, and places that experienced Duncan's loving spirit and immense appreciation for the outdoors.

May he rest in peace.

CONGRATULATING DEPUTY CHIEF GARAVEN ON HIS RETIREMENT

Mrs. MIMI WALTERS of California. Mr. Speaker, I rise today in honor of Paul Garaven on his retirement from the Tustin Police Department.

Deputy Chief Garaven has served over 30 years at the Tustin Police Department beginning in 1987 as a part-time volunteer reservist. Since then, he has held numerous positions within the department, including time spent undercover with the special investigations unit.

No matter the title Deputy Chief Garaven held, he devoted every day of his career to making the city of Tustin
